

OLD HINDENBURG LINE BROKEN AT A PLACE EAST OF HENINEL

British Troops Succeeded To-day in Penetrating Famous Defense System Which Hindenburg Expected Would Keep Germany Free From Invasion

BREAK WAS MADE WHERE BATTLE RAGED HARDEST

British Troops Succeeded in Wresting the Northern Outskirts From the Hands of the Desperately Resisting Germans—More German Prisoners

With the British Army in France, Aug. 27 (by the Associated Press).—The Hindenburg line has been penetrated by British troops at a point east of Heninel.

With the British Army in France, Aug. 27 (by the Associated Press).—Troops of Field Marshal Haig to-day are advancing astride the river Scarpe and are pushing forward to the south of Bapaume. Elsewhere along the British front their progress also continues.

There has been heavy fighting at Longueval and on the adjacent ground, where the Germans launched a heavy counter-attack with fresh forces brought up especially for the purpose from Sedan.

In the face of this counter attack the British fell back to the edge of Longueval.

In the course of the night the New Zealanders, according to reports swept around Bapaume at the north and reached the railway just north of the Bapaume-Cambrai road.

The Germans are offering stiff resistance in the neighborhood of Thillois, to the south of Bapaume.

Reports have been received from the advanced lines that the British patrols have again entered the outskirts of Bapaume and that there has been street fighting between the British and Germans on the edge of the town.

The British have penetrated the Hindenburg line at one point to the east of Heninel which is between Bapaume and the Scarpe river and hard fighting is reported to be in progress here. The British advanced lines now are reported to be east of Monchy-le-Preux. German rear guards are fighting to retain their hold on Pelvies, on the south bank of the Scarpe, the British having reached the edge of the town.

North of the Scarpe progress is being made by the British on both sides of the road to Douai. As Haig's troops advanced south of the river the Germans soon found that the ground north of the stream was extremely dangerous. Here they are being forced back, leaving their rear protected with a large number of machine guns and are employing the same tactics as they generally are using along the rest of the battle line.

FRENCH CAPTURED 1,100 SOUTHWEST OF ROYE

The Bag of Prisoners Included Two Battalion Commanders—German Counter Attacks Were Repulsed.

Paris, Aug. 27.—French troops advanced this morning in the region of St. Mar, southwest of Roie, after repulsing a number of enemy counter attacks in that sector, says to-day's war office statement. They have captured 1,100 prisoners, including two battalion commanders.

East of Bagnaux, north of the Aisne, the French have advanced their lines about three-quarters of a mile. German counter attacks were repulsed.

The text reads:

"South of the Aisne French troops accentuated their progress this morning in the region of St. Mar, after having repulsed a number of enemy counter attacks. We have taken more than 1,100 prisoners during these combats. Of these thirty-six are officers, two of whom are battalion commanders."

"Between the Oise and the Aisne, German attacks, west of Chavigny, broke down last evening. Thirty prisoners remained in our hands. In the region east of Bagnaux we have advanced our line about 1,200 meters."

"During the night there were lively artillery duels between the Ailette and the Aisne."

GERMAN DEAD STREW FIELD.

Following Enemy's Attempt to Halt Gen. Mangin's Army.

With the French Armies in France, Aug. 27.—(By the Associated Press).—Heavy German forces made a desperate attempt to drive the French from the heights between Juvisy and Crecy-aux-Monts yesterday. The attack was carried out by the first guards division, which has been brought from the region of Charleville.

The French at first yielded a little ground between Pont St. Mar and Orme-de-Montecuve. They then brilliantly counter attacked the enemy and not only managed to restore their former positions, but made a slight ad-

GERMANS FIGHTING SAVAGELY ON WHOLE LINE

(By the Associated Press.)

Smashing through the German lines in the battlefields of northern Picardy, British troops have recaptured the western and northern outskirts of Bapaume, the town which has been considered the key-stone of the enemy lines in that sector of the front.

The official statement issued at London to-day shows slow but continued progress in almost every part of the line from Croisilles, far to the north, to well below the Somme river.

The British are advancing toward Beugnot, two and a half miles northeast of Bapaume. Nearer the Somme river they have moved eastward along the difficult ground that borders that stream. They are reported east of Suzanne, which is situated on the northern bank of the river, and are closing in on Dompreire, which may be the pivot of the German lines south of the Somme in the direction of Chaumes.

French troops are once more advancing near Roie, the official statement issued at Paris telling of successes near St. Mar, a mile southwest of Roie. Heavy German counter-attacks were repulsed in this region. Between the Ailette and the Aisne the French have repulsed German counter-attacks and have advanced their line about three-quarters of a mile in the district east of Bagnaux. This advance should bring General Mangin's army nearly north of the town of Juvisy, which appears to be important from a defensive point of view.

There is little indication, however, that the German armies are demoralized in the battle that is going on from Arras to Soissons. At every point they seem to be fighting savagely and to be compelling the British and French to extend themselves to the limit. This resistance seems to be especially vigorous in the region of Croisilles and farther north between the Cojeul and Scarpe rivers, where the British attacked yesterday morning.

British fighters again have bombed Mannheim and Frankfurt with success, while American bombing machines have attacked Conflans, between Metz and Verdun. In aerial fighting on the battlefield Sunday, British aviators accounted for 38 enemy machines.

In Albania the Italians have been driven from Fier and Berat, the most important towns captured in the July offensive. Vienna says Fier was taken after desperate fighting and that the Italians suffered heavily in men and material. Paris reports Austrian attacks at the juncture of the Devoll and Tomorica rivers, east of Berat, were repulsed. The French afterward withdrawing slightly to maintain contact with the Italian right wing.

RED CROSS BATHHOUSE SHELLED BY GERMANS

Twenty-three Belgian Employees Were Killed and 60 Others Were Injured

—Shell Destroyed Three Structures at Point Near Belgian Front.

Washington, D. C., Aug. 27.—Details of the recent shelling of an American Red Cross bathhouse for Belgian soldiers near the Belgian front, in which twenty-three Belgian employees were killed and sixty others injured, were received to-day at American Red Cross headquarters.

The three large buildings, including a laundry and fumigating plant, gave employment to about 200 persons. A shell hit the roof of the laundry of the bath about 11 o'clock in the morning. Fragments penetrated all three structures and destroyed them. Men, women and children were hurled in every direction and for long distances. Parts of bodies were found in the street many feet from the structures.

An hour after the shell hit the building a soldier brought a bundle to the hospital and said to a physician, "What must I do with this?" It was the arm of a little boy he had found in a vacant lot.

Madam Rolin, for the Belgians, took charge of the women and assisted the Red Cross in immediate relief work. A large sum of money was made available by the Red Cross at once for the relief of the injured and their families. The employees were refugees driven from Belgium towns by the German advance. A little hunchback girl, who was supporting her widowed mother, lost both legs. At the hospital she said to her mother, "It doesn't matter so much. I can still sit and sew, I will be a dressmaker and we will get along."

CAPTURED 2,000 IN MONCHY.

British Made Advance of Two and a Half Miles on Scarpe.

Paris, Aug. 27.—(Havas).—In their advance in the region of Monchy-le-Preux Monday, British troops captured more than 2,000 prisoners, the newspapers here say. On a front of six miles south of the Scarpe the British advanced to a maximum depth of two and a half miles.

USE 70 DIVISIONS.

Germans Were Forced to Employ Over 700,000 Men.

British Headquarters in France, Aug. 27.—(Canadian Press).—British officers estimate that the Germans were forced to use at least seventy divisions between the Scarpe and Aisne rivers from Aug. 8 to Aug. 25.

BRITISH ARE NOW IN BAPAUME

After Fierce Fighting Established Themselves in Northern Outskirts

GERMANS RESIST WITH DESPERATION

Great Stronghold Will Not Be Given Up Till the Last Minute

London, Aug. 27.—British forces are established in the northern outskirts of Bapaume, says to-day's war office statement.

British forces are making progress toward the village of Beugnot, two and a half miles northeast of Bapaume. There is hard fighting around Croisilles, farther north. The British have pushed through the town of Montauban, three miles north of the Somme, and capturing the wood near that place, have reached Longueval.

Australian troops have made substantial progress toward Dompreire, south of the Somme, and east of Suzanne, north of the river.

North of the Scarpe river Scottish troops renewed their attack against the Germans last night and have advanced toward Plovaun.

Since last Wednesday the British have taken 11,000 prisoners.

The text of the statement:

"Severe fighting took place on the field of the old Somme battle between Marcourt and Bapaume, and also north of the latter town, yesterday afternoon and evening. The enemy counter attacked repeatedly in strength, incurring great losses from the fire of our troops, but being unable to arrest our progress."

"English and Welsh troops pushed through Montauban and advanced along the crest of the ridge, capturing High wood and reaching Longueval. Along the ridge we heavily counter attacked and forced back toward Bazentin-Le-Cranv and High wood. On this line we broke the enemy's attack and, again advancing, established ourselves well to the east of High wood."

"Early in the night a second enemy counter attack was driven off by rifle fire before the Germans reached our position."

"North of High wood the enemy twice counter attacked in the neighborhood of Ligny and Thillois, pressing back our advanced troops some 400 or 500 yards. There his infantry was stopped and driven back."

"At Bapaume the New Zealanders after fierce fighting established themselves in the northern outskirts of the town."

"Farther north English troops progressed toward Beugnot. We have had hard fighting about Croisilles."

"On the right of the battle front the Australians continued their advance astride the Somme and made substantial progress towards Dompreire and to the east of Suzanne."

"On the left of our battle front the Canadians yesterday captured the ridge to the east of Wancourt and established themselves to the east of Guenappe."

"North of the river Scarpe Scottish troops renewed their attack last night and they have made substantial progress toward Plovaun."

"Prisoners taken since the morning of Aug. 21 exceed 21,000."

More Alsations have been captured by the British. One of them said he had refused for three years to enter the German army. He finally was dragged in by force and since then has been mostly in the front lines.

UNIVERSALISTS IN CONVENTION

Association of Vermont and Province of Quebec Meets in Barre

REV. C. R. STETSON PRESIDENT Y. P. C. U.

Some Consolidations of the Branches Made During Year

The annual meeting of the Universalist convention of Vermont and Province of Quebec, which is being held at the Universalist church in Barre, was occupied to-day with the sessions of the Young People's Christian union. The list of delegates is not large owing to the decreased railroad facilities, but the convention promises to be one of the best ever held. The delegates are being cared for in the homes in the parish, and they will be in Barre during the greater part of the week, the meetings ending on Thursday.

Last evening's exercises were in charge of the Young People's Christian union, the program being marked by the president's address by Rev. D. E. Trout of Brattleboro and the opening sermon by Rev. Will C. Harvey of Bethel, while this forenoon's exercises were also under the supervision of this organization of the church.

President Rev. Trout of the union, in his address pointed out clearly the good work done by the various unions throughout the state, still thriving in spite of the decrease in numbers due to various causes, including the conservation policies and the combining of unions. In enforcing his statements, he gave various statistics to prove his point. He forcefully urged the need of upholding the moral side of our boys' lives and in closing he entreated the members of the union to pull together to make the next year a banner year in the history of the organization.

Rev. Mr. Harvey, in his address emphasized the prevailing theme and idea in the minds of all true Americans, that of considering "What can we do?" He spoke of linking work with faith in Christianity and said that a golden opportunity for showing the world the extent of our faith was given at the present time and at the same time to display to the world by act and deed that Christianity is not dead. The speaker brought home to his listeners the need of apostles at the present time and urged his listeners to adhere to both talking of faith and work so as to become good apostles, and by doing so "be ye doers of the word and not hearers only." After his address the meeting adjourned until this forenoon.

The second day's program opened this morning with a sunrise service at 6 o'clock. The leader was Rev. C. A. Sumner of Barnard, who took as the topic of the meeting "Keeping the Home Fires Burning."

At 9 o'clock the business session of the Y. P. C. U. was held. The reports of the various committees were received, showing the work which had been done during the year. The report of the secretary showed a membership of 198 in the state. The report of the treasurer showed receipts of \$127.70 and expenditures of \$67.50.

Addresses were given by Rev. R. F. Johnson, D. D., of Belvidere Falls, and Rev. George F. Farley, President Trout, called for pledges for state work and \$60 was received. Rev. John S. Lowe, general superintendent, brought the greetings of the national union.

The committee on resolutions reported: (1) Vote of thanks to local parties; (2) promising co-operation in all forms of war activity and pledging prayerful thought to those serving in military ways; (3) voting the continuance of the office of field agent.

The committee on credentials reported 16 day delegates, six clerical delegates, nine unions being represented. The following officers were elected:

President, Rev. C. R. Stetson of Rutland. Vice-president, Miss Rena A. Paul of Wells. Secretary, Mrs. Norma R. Jeffs of Chester. Treasurer, Verne H. Winchester of Brattleboro.

Executive committee, George F. Fortier of St. Albans, Rev. D. E. Trout of Brattleboro and William Jewett of Belvidere Falls.

The reports of the local unions were received, after which the occasional sermon was delivered by Rev. C. R. Stetson of Rutland.

This afternoon the women's missionary association began its meeting and the afternoon will close with the election of officers. The meeting of the convention proper will be started this evening, and the program is as follows:

7 p. m.—Devotional exercises; president's address, O. K. Hollister, Barre; session committees; address, Rev. John S. Lowe, general superintendent, Brattleboro; address, Miss Susan M. Andrews, Bridgeport, Conn.
